“Servicing the electronics industry for over 20 years”

➤ Who We Are?

International Semi LLC is an Authorized Manufacturer Representative that spec's in and distributes for Passive and Active Components. Our lines are strategically chosen to handle all items on any one customer's application. We carry resistors, capacitors, connectors, thermistors, sensors, diodes, imaging chips, active memory, fuses, circuit breakers, relays and all active Integrated Circuits. We have been keeping production lines moving with major multinational players for over 20 years with our competitive market pricing, leverage and knowledge.

➤ Our Services?

Int Sem's unique access to deep knowledge of direct supply and demand channels prevent pricing from becoming artificially inflated or devaluated in the market.

- Authorized Manufacturer Representative
- Over 4,000 trading partners from more than 120 countries.
- A supply network with detailed, up-to-the-minute market and product liquidity data.

Sales Team

Int Sem has a very experienced sales and support team in the independent channel.

- Account Managers have an average of 5 years experience.
- Senior sales management has an average of 10 years experience.
- Commodity experts have an average of 10 years experience.
- Excess Recovery Group is dedicated to offering customized excess inventory solutions to meet customer's unique and ever-changing market needs.
- Dedicated field sales teams are located strategically across the globe to gather information regarding customer's current business and technology environments, and to develop creative proposals for optimizing customers' bottom-line results.

Inventory Management

- Supply Chain Management
- Consignment Programs
- Kitting, Dry Packing/Shrink-Wrapping
- Tape and Reeling Services
- End-Of-Product-Life Management
- E-Commerce Integration
- Lead Forming
- Bar coding
- Ship Monday-Saturday 9:00am-7:00pm EA time
- JIT Programs with Door to Door pricing
- Product Knowledge
- Dedicated Floor Space
- Inventory Tracking System
- Years of Industry Experience
- Electronic Components
- Semiconductors
- ESD Anti-Static product
- ROHS compliance
